DETAILED ACTION

Claim Objections

1. Claims 1 is objected to because of the following informalities: typo errors, claim 1, line 8, "fuel to th engine" should be "fuel to the engine", claim 1, line 10-11, "the muffler is directly mounted to the cylinder handles" should be "the muffler is directly mounted to the cylinder, handles", claim 15, line 1, "Machine claim 12" should be "Machine according to claim 12". Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Regarding claim 1, line 11, the phrase "preferably" renders the claim indefinite because it is unclear whether the limitation following the phrase is part of the claimed invention.

5. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then

narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 15 recites the broad recitation at least 60%, and the claim also recites preferably at least 80% which is the narrower statement of the range/limitation, and claim 16 recites the broad recitation not smaller than 35 degrees, and the claim also recites preferably not smaller than 40 degrees which is the narrower statement of the range/limitation.

Allowable Subject Matter

6. Claims 1-29 would be allowable if rewritten or amended to overcome the objections and rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

7. Applicant's arguments with respect to claims 1-29 have been considered but are moot in view of the new ground(s) of rejection.
